The ✠ symbol in the class symbol denotes Vessels built under Special Survey of the Bureau. The Vessel itself is examined at intervals of four years, and general examination is made. The classification of the particular parts of machinery remains in full force until the surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. The Vessels so classed are constructed of material and in accordance with the requirements of the Bureau's Rules for the construction of steel vessels for the highest class. Where vessels have been built, but on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless surveyed and opened according to rules. The publication of the particulars of unclassed vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed at initial survey unless the machinery and boilers have been examined and approved and reported according to Rules. The performance of the machinery, boilers and auxiliaries of classed vessels is reported upon at periodical surveys. Where periodical surveys have been held on such vessels, no opinion is expressed as to their character.

For ✠ preface to the class symbol see Vessels built under supervision of Bd. Explan. No Vessel will be classed or rated unless satisfactory plans, specifications, etc. have been submitted to and approved by the proper Committee of the Society. In the publication of additional vessels of the highest class, the Committee reserves the right to withhold the highest class from vessels which, although built under the Society's rules, have been found, on subsequent examination, to be unsuitable for the service intended. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✣ symbol in the class symbol denotes Vessels built under Supervision of the Bureau. No Vessel will be classed or rated unless satisfactory and approved drawings have been submitted to and approved by the Committee of Management. Vessels are classed for the purpose of insurance only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✚ prefixed to Classes signifies that the Vessels have been under Special Survey at the Builders'. The Vessel will be classed 12 months after completion, and annual surveys will be held at the dates required by the Rules. The letters (E) after the Classes denote that the Vessels are built specially for Ice navigation, in accordance with the Society's Rules. Such Vessels have their Rudder Stocks, Pintles, and Gudgeons of increased strength, and their Plating is of extra thickness.

The ✣ prefixed to the class symbol signifies that the vessel has been surveyed by the Bureau. Vessels built to Lloyd's or other classification Societies' rules, but not classed with the Bureau, are not so marked. The class of the remaining vessels is the result of examinations made by the Bureau's Surveyors. As no Surveys have been held on such vessels, no opinion is expressed as to their character.

The ✢ symbol in the class column denotes vessels built under Shipowners' & Dry Dock Co. Rules. Vessels classed as registered under Special Survey and vessels classed as registered under Annual Survey have been built under the supervision of the Society's Surveyors. In the case of vessels classed as registered under Annual Surveys have been built on such vessels, no opinion is expressed as to their character.

The ✝ prefixed to the class symbol denotes Vessels built under Special Survey of Lloyd's Register. New Vessels will be classed at rated intervals only, and special attendance is given during construction only. As no surveys have been held on such vessels, no opinion is expressed as to their classification.

The ✠ prefixed to the class symbol denotes Vessels built under Supervision of the Bureau. All Vessels classed or registered in the Society's Books are periodically surveyed, and special surveys take place when Vessels are transferred to the Society, or when extensive alterations or repairs are reported. The publication of the particulars of unreported vessels is for general information only. As no surveys have been held on such vessels, no opinion is expressed as to their character.

The ✣ symbol in the Classification column indicates vessels under the supervision of the Institute. No Load Line is allowed to vessels whose surveys have expired or which are overdue for them. The publication of the particulars of vessels in the Register Book does not imply that any survey has been held on such vessels, nor any opinion is expressed as to their character.

The ✠ symbol in the class symbol denotes Vessels built under Supervision of the Society. The Vessel will be classed or retained in class if found on examination to be in good condition and eligible for the class. Where Vessels are not classed or retained in class, the grounds for withholding class are stated in the Remarks column. The particulars of the machinery of classed vessels are the latest information to hand. As no Surveys have been held on such vessels, no opinion is expressed as to their character.

The ✣ preceding the name of a vessel indicates that she is classed with the Society. The word "Exempt" opposite the name of a vessel indicates that she is exempted from classification by the Society. Where no entry appears in the column headed "Ship—Class. Date of Last Survey," and no entry appears in the column headed "Remarks," the vessel has been built under the Society's Rules, but has not been classed with the Society. As the Society has not had the opportunity of surveying such vessels, no opinion is expressed as to their character.

The ✣ prefixed to the Classification Society's Notation indicates that a Special Survey of the Hull, Machinery and Boilers has been held on such Vessel, the Report of which has been approved by the Committee of Lloyd's Register of Shipping. Vessels will be classed as regards Hull and Machinery according to their Class. The particulars of the Construction of Iron and Steel Vessels built for Classification are compared with the Rules for the Construction of Iron and Steel Vessels, and the Machinery is surveyed during construction. Special Surveys have been held on such Vessels, the Machinery is examined as to Head Clearances.

The ✠ prefixed to the class symbol denotes Vessels built under Special Survey at the Builders' Yards. No Vessel will be classed or rated unless satisfactory plans, specifications and scantlings are submitted. The qualifications of the surveyors employed to be the principal consideration in all cases. Where surveys have been held on such vessels, no opinion is expressed as to their character.

The ✠ prefixed to the Class denotes that the Vessel is built under Special Survey. No Vessel will be classed or rated unless built to the Rules of the Society. The insertion of the particulars of vessels is for general information only. As no Surveys have been held on such vessels they are not to be considered as Classed in the Register.

The ✠ symbol in the class symbol column indicates Vessels built under the Special Survey of this Register. The Load Line assigned is based upon the Summer freeboard corresponding to the tonnage. The letters in the column of miscellaneous remarks indicate the general information given. As to Survey, if more than 1 year has elapsed since vessel was docked, the date is printed in the usual manner.

The ✠ prefixed to the class symbol denotes vessels built under the supervision of the Bureau. The Bureau will be pleased to furnish information regarding special requirements for the construction of vessels intended for classification. As to vessels built by others than those on such vessels, no opinion is expressed as to their character.

† Indicates that the Vessel is classed Special Survey Vessel A1 Steel Screw Steamer or A1 Motorship. The Vessel will be examined or tested before receiving her classed assigning character. The continuance of the classification of successful vessels is to be dependent upon the periodical examinations being made as such vessels are required to be from time to time.

The ✠ prefixed to the class symbol denotes Vessels built under Special Survey at the Builders'. New Vessels will be classed at rated underwriters' load summer draught, unless otherwise specially requested. The particulars of the machinery of vessels so classed are given on the authority of the Builders' Certificates only. As no surveys have been held on such vessels, no opinion is expressed as to their character.
